

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF KENTUCKY UTILITIES COMPANY)
FOR AUTHORIZATION OF CHANGES IN SERVICE) CASE NO. 95-051
TERRITORY WITH CLARK RECC AND NOLIN RECC)

O R D E R

On February 6, 1995, Kentucky Utilities Company ("KU") filed its application for approval of changes in service territories with Clark Rural Electric Cooperative Corporation and Nolin Rural Electric Cooperative Corporation. KU filed territorial maps reflecting the proposed changes and signed by the affected utilities. A summary of the boundary changes is set forth in Appendix A to KU's application.

The proposed territorial boundary changes represent either realignments of the original service territories to conform to property lines or situations where KU's existing facilities are closer to the proposed service location than the originally designated utility. No existing customer will be reassigned to a different electric supplier as a result of the proposed territorial boundary changes.

Based on the application and being advised, the Commission finds that the proposed boundary changes will prevent wasteful duplication of facilities, avoid unnecessary encumbering of the landscape, minimize disputes between retail electric suppliers, and provide adequate and reasonable service to all affected areas.

IT IS THEREFORE ORDERED that:

1. The boundary changes set forth in Appendix A to KU's application be and they hereby are approved.

2. KU shall file within 30 days of the date of this Order one additional copy of Cecilia and Hedges topographic quadrant maps.

Done at Frankfort, Kentucky, this 31st day of March, 1995.
